

Call for Papers
Family and Demography Network
Social Science History Association 38th Annual Meeting
Chicago, IL, November 21-24, 2013
Submission Deadline: February 15, 2013

The Family and Demography Network of the Social Science History Association issues a call for papers for a variety of panels that have been proposed by network members, and for proposals for additional panels.

We especially appreciate receiving entire panels, consisting of four papers, with panel chair and commentator, but also invite proposals for roundtables, book sessions, or single papers. This year, the network chairs will depend more heavily on authors of single papers or those with incomplete panels to find other papers or incomplete panels with which to collaborate in forming complete panels. We will keep updating the list of panels that are still seeking the full complement of papers and of single papers, and send out this information to those on our mailing list.

Please note that the overarching theme of the Annual Meeting is 'Organizing Powers.' Sessions that fit the description of this theme (see SSHA's website) stand a chance to be listed as presidential sessions.

The list of panels that have already been proposed appears below. Please contact the panel organizer directly if you wish to submit a paper to it.

PANEL PROPOSALS ALREADY RECEIVED

1. Antoinette Fauve-Chamoux, Family crises related to changes in legislation, fauve@msh-paris.fr.
2. Mikolaj Szoltysek, "Do imposed family policies change family systems?" szoltysek@demogr.mpg.de.
